DR. JOSHUA LEDERBERG
Dep. of Genetics,
University of Wisconsin
MADISON, Wis., USA

Dear Doctor Lederberg,

You were as kind as to send me some reprints of your paper published recently. My attention has been particularly attracted by one of our review dealing with the parasitic symbiosis. Unfortunately, to my infinite regret, I have lost this very valuable reprint. This loss is highly irritable to me, for the periodical in which your paper was issued is not available here. I wonder, are you in the position to lend me a copy of this article. I shall have it photocopied and return to you.

With best regards

Sincerely yours

G. Ivánovics
